

GCSE RESULTS 2022

HEWENS COLLEGE CELEBRATE RESULTS DAY

On Thursday 25th August, Year 10 students were joined by staff to celebrate an exceptional set of GCSE results. Despite facing disruptions of the pandemic which had placed a long-lasting impact on students' learning, they soared through with perseverance which was reflected in their spectacular results, thus securing places in their chosen courses. Their resilience, diligence and optimism, supported by the encouragement and the indefatigable efforts of their teachers contributed to the excellent progress made throughout the year and the students' individual successes. Most of the students have either progressed to the Post 16 course of their choice or have gone on to continue with education and training opportunities elsewhere.

Hewens College is looking forward to a favourable Progress 8 and Attainment 8 score. The students and staff have worked hard to achieve their levels. The results in most areas were commendable and the College is very happy with the results particularly in Mathematics, English, Languages and Information Technology (IT). Hewens is proud to share the fantastic achievements of the students below who have achieved great results and have begun their Post 16 Studies.

Some of our exceptional successes are shown in the tables:
