

Compass Workshop

We have just completed our annual Compass Workshops at the three primary schools within the Trust. The selected participants were given booklets to work through during the sessions. The students were overall actively engaged and very cooperative to work with. The Year 8 students from Hewens College went as Mathematics coaches to assist the KS2 students with using the compasses, while developing their own communication, leadership, problem solving and social skills. These students did really well as they got the chance to meet, help and teach the younger children.

The workshop was designed to:

1. Build confidence in using the compass;
2. Provide an introductory Mathematics GCSE lesson before starting KS3;
3. Promote active learning through direct interaction between KS3 and KS2 students;
4. Reinforce the learning and skills of the student coaches;
5. Cater for all different ability groups for greater understanding;
6. Enhance interest in Mathematics through real life links.

Bedrock Learning

We have invested in a wonderful online programme called Bedrock. This is an online programme where your child can access both non-fiction and fiction texts to improve their reading skills and learn new vocabulary that will enhance the way they read, speak and write across all of their subjects. As your child progresses through the Bedrock curriculum, they will study hundreds of new words.

Research has shown that there is a direct link between a student's vocabulary size and their academic achievement. Children with a wider vocabulary make faster progress at school, in further education and beyond. Narrow vocabularies affect directly students' grades.

The Bedrock core curriculum is accessed by every year 7 and 8 student during their weekly English lesson. Parents, guardians and carers of Year 7 and 8 will shortly be receiving a letter with their child's log in details. For extra information visit the Bedrock website:
